Are you concerned your property may have sustained damage from the recent storms?

Are you looking for a company you can count on?

Play your cards right & choose a contractor that will be there for you throughout the entire process; from beginning to end; from start to finish. An honest company with one of the most comprehensive warranties in the industry.

Give Pro Tech Restoration a call for a free and thorough property inspection. One of our Platinum Certified Contractors will schedule an appointment with you to give you your free comprehensive property inspection which includes:

- *A 360° Inspection of each structure*
- *Inspection of the roof shingles, skylights, step flashings, drip edge, ventilation, chimney caps, rain diverters, valley metal, pipe jacks, exhaust vents & gutters*
- *An Inspection of each elevation; inspecting the siding, windows, window wraps, doors, door wraps, fascia, soffit & downspouts and any additional exterior structural components*
- *An inspection of your insulation. Ensuring your home has the accurate amount of insulation which helps save you money for years to come*

Upon completion of your inspection. Our specialist will review with you their evaluation. Giving you a peace of mind if no damage is found.

If your property appears to have storm damage; you will receive a profound insight of damage found; answering any questions you may have. With no pressure, you're left with options and information regarding the condition of your property.
